

LEFA – lego experience & fan archive

LEFA is an integrated platform for LEGO enthusiasts.

LEFA is planned as a service that allows LEGO users to share their own creations (MOCs), compare various LEGO parts at a glance, and easily access the latest LEGO news.

1. MOC Upload & Editing

- Upload your own MOCs
- Provide rendering, editing, and organization features for .io files

2. Integrated LEGO Parts Search

- Search LEGO parts across multiple platforms in one place
- Compare prices and market values

3. LEGO Magazine

- Curated LEGO news and new release information

Any features you think should be added?
